23.3. To determine the number of delegates to be designated on the basis of being the longest-serving members and by draw, the total number of members on the final day of the previous financial year (June 30) will be taken into account, and this figure will be invariable for all Assemblies held during the delegacy period of all delegates chosen by draw.

23.4. The nomination of the delegates will be communicated to the interested parties in writing, stating the date that the delegacy period begins and ends.

23.5. The delegates will be issued with an accreditation, which will bear their name, their membership number and the duration of their delegacy period

Article 24.- Election by draw of delegates.

24.1. The Club's Board of Directors will publicly announce the holding of a draw to designate delegates under the terms of article 21.2.a), by placing an announcement in a widely-read Barcelona newspaper or through direct communication to Club membership.

The electoral roll will be prepared as detailed in article 43.

24.3. All claims relating to the electoral roll must be processed in accordance with the procedure detailed in article 43.2 and the functions bestowed therein upon the Electoral Board shall be assumed by the Board of Directors, with the intervention of the Members' Trustee.

24.4. The draw will be held at the Club's head office and will be open to all members. The Secretary will be that of the Board of Directors, who will draft the minutes. It will be attended by the Members' Trustee, as well as a notary to bear legal witness to the procedure.

24.5. The draw will be made using a computer system that guarantees that the full electoral roll of Club members is accounted for, the random nature of the draw, and the equal opportunities of all eligible persons.

24.6. At the draw, the number of members resulting from article 21.2, section a) will be selected, plus a discretionary number of substitutes to replace any that might be chosen but do not comply with the conditions for election established in article 21.1.

25.2. When it is the members that demand an Assembly to be called, this must be done in writing, with the support of a minimum of 10% of the Club members, or a minimum of 30% of the delegates, specifically declaring the object of the Assembly and the text of Agenda being proposed. In order to determine the sufficiency and validity of the support, the procedure outlined in article 44.3 will be applied, and the functions bestowed therein upon the Electoral Committee shall be assumed by the Board of Directors, with

the intervention of the Members' Trustee. The Board of Directors will not be obliged to call an Assembly when the subject proposed by the members refers to an issue that has already been dealt with and resolved by the Assembly during the six months before the date of the request.

25.3. General Assemblies will be called through an announcement in a widely-read Barcelona newspaper or by communication to all of the delegates.

Between the publication of the announcement or communication to the delegates and the holding of the Assembly, there must be a minimum of 15 calendar days and a maximum of 60 calendar days.

25.4. When the Assembly had been requested by the members, the Board of Directors must agree to call it within 30 calendar days of receiving the request, and the period for holding it may not be any later than 30 days after the call.

If the Board of Directors does not call the Assembly, the General Secretary for Sport, if the corresponding Federation has no regulations on the issue, at the request of any of the requesting members, may order the Board to do so. If the Board does not call an Assembly within the period indicated to it by the General Secretary, the General Secretary will be empowered to discretionally nominate the missing members of the Presiding Committee. Once the Presiding Committee has been constituted, if the Board does not comply with the order to call the Assembly, the Presiding Committee can directly call members to the Assembly. This is all regardless of any disciplinary responsibilities that could be derived from non-compliance with obligations.

25.5. In announcing that General Assemblies are being called, the date, time, venue and Agenda must be declared. If the General Assembly is called by initiative of the Club members or delegates, the Agenda must necessarily declare their proposals, as well as those agreed by the Board of Directors.

Article 26.- Information prior to General Assemblies.

During a period of no less than 10 working days before the Assembly is held, the delegates may examine at the Club Offices the documentation that the Board of Directors has prepared regarding the items contained in the Agenda. This examination must be made during working hours.

In reference to items of a financial nature that are the competence of the General Assembly and are described in article 19, sections 2 and 3, the documentation that must be provided to the delegates for their examination will be, at least, the following:

- Report on the liquidation of the budget for the financial year ended.
- Balance and profit and loss accounts for the financial year ended.
- Budget for the new financial year.
- Any audits that have been made.

The aforementioned documentation will be prepared in accordance with the criteria established in Chapter VI on the Financial System.

All of the information that is provided to the delegates will be confidential; it cannot be published and will remain in the Club offices.

Article 27.- Holding of the General Assembly.

27.1. Accreditation of delegates.

To attend the Assembly, all delegates must accredit beforehand and in documentary form their person and their condition of being a delegate, in accordance with the regulations stipulated by the Board of Directors. They must also accredit their person at any time during the General Assembly itself, at the request of the Presiding Committee.

27.2. President and Secretary of the Assembly.

The Assembly will be chaired by a Presiding Committee made up of members of the Board of Directors and the Secretary will be that of the Club.

27.3. Constitution and commencement of the Assembly.

The Assembly will be validly constituted, for the first call, when half of the delegates are present.

For the second call, the Assembly will be validly constituted whatever the number of delegates present.

Between the first and second calls there must be a period of 30 minutes.

The number of delegates, in order to calculate the quorum for the first call, will be the total of those resulting from article 21.2.

27.4. Direction and development of the Assembly.

The Assembly will be chaired by the President, who will be assisted by the Secretary. The President may delegate these functions at any time to any member of the Presiding Committee.

The different items on the Agenda will be dealt with separately, but the Presiding Committee may change the order.

The President will direct the debates, will award and withdraw the right to speak, and will do everything necessary to ensure that the meeting runs properly.

The Presiding Committee may agree, before or during the Assembly, on the maximum number of speeches and their lengths.

Before speaking, delegates must state their name and membership number.

The President, or Secretary, will warn speakers when: they have run out of time, they have moved away from the topic of debate, they adopt attitudes or make declarations that dishonour or tarnish the good name of persons, or that affect the order or normality of the meeting. If despite the warning the speaking member persists with such behaviour, he or she may be refused the right to speak and, if necessary, it may be agreed for him or her to be expelled from the Assembly.

27.5. Resolutions and votes.

General Assembly resolutions will be passed by simple majority among those present, unless:

- They amend the Statutes, which requires a majority of two thirds of those present, unless this involves the compulsory application of an imperative regulation, a case that will not be considered to be a modification of the Statutes;
- Items that require a qualified majority, under terms of articles 53, 62, 73, 74 and 75.
- Any other issue that, according to the Statutes or the valid regulations of the time, require a qualified majority.

The Presiding Committee will decide at each time the voting method, which may be by the procedure of delegates standing up, raising their hands, displaying different coloured cards, may be a roll-call vote, may call for each delegate to vote in secret, or may be by secret ballot.

In all cases, the voting will offer three simple alternatives: in favour, against or abstention.

27.6. Minutes of the Assembly.

The Secretary will draft succinct minutes of the Assembly, which shall be passed by three member delegates selected by the Assembly itself from those present, and given the approval of the President.

27.7. Suspension of the Assembly.

If circumstances arise at the Assembly that seriously affect the Agenda or make it impossible for it to be continued, the Presiding Committee may agree to suspend the meeting.

The agreement to suspend the meeting will be announced to all present as well as the date when it is to be resumed, which must be within no more than 15 calendar days.

SECTION 3.- BOARD OF DIRECTORS

31.2 When the Board is renewed by reason of early termination of the previous term, as provided in article 32.4, the new Board will start its mandate from the moment of taking office, which will occur within ten calendar days following the date of election. In this circumstance, the duration of the term will be six full calendar years, plus the time comprised between the day of taking office and the next 1 July after taking office.

31.3 The President of the Governing Board may hold office, consecutively, for a maximum of two terms.

The other members of the board can be re-elected indefinitely

Article 32.- Vacancies, cessation, suspension and substitution. Management Commission.

32.1. Vacancies

The filling of vacant positions on the Board of Directors for each term of office is made by free, direct, equal and secret vote by all Club members with voting rights, in accordance with what is stipulated in Section 4 of this Chapter.

Positions on the Board can also be temporarily filled in the case where the totality of the positions have not been covered by the elections, or to substitute those that leave or are suspended from their positions during the term of office, in accordance with what is regulated by this article. This filling of vacancies will not be applicable in the cases of simultaneous and general cessations of components of the Board that surpass the parameters established by article 32.4, and will not affect the substitution of the President when he or she leaves the post during the term of office, in accordance with what is established by article 30.2.c). This situation of temporary filling of vacant positions will be subject to the following regulations:

- a) The nomination will be agreed by the Board of Directors, on proposal of the President, and must befall all members who fulfil the requisites of article 38.
- b) The nomination will be provisional and will be conditioned by ratification by the next General Assembly to be held. If it is not ratified, the person will immediately be removed from the post, without this affecting the full validity of their actions during the provisional period in which that person held office.
- c) The duration of the term of office will be the time remaining for the Board of Directors as a whole, unless this person has been nominated to substitute a member of the Board of Directors when the term of office is in suspension, in which case the term in office of the substitute will be limited to the time of the aforementioned suspension and will end as soon as the substituted person returns to the post.

32.2. Cessation.

The cessation of the members of the Board of Directors can be produced for any of the following causes:

- a) Through termination of the natural term of office for which they are elected.
- b) Through loss of the condition of being a Club member.

- c) Through death or permanent incapacitation that prevents the person from exercising his or her position.
- d) Through loss of the conditions established by article 38 in order to be elected, or any other condition that is statutorily or legally demandable to exercise the position.
- e) Through the passing of a vote of confidence.
- f) Through individual renouncement or resignation by the member, accepted by the Board of Directors.
- g) Through general renouncement or resignation in the case and conditions regulated by article 32.4.

32.3. Suspension.

The suspension of members of the Board of Directors can be produced for any of the following causes:

- a) By request of the interested party, when circumstances concur that justify this and this is accepted by the Board.
- b) By disciplinary sanction consisting of the suspension of the condition of being a member, as agreed by the Disciplinary Commission as referred to in article 55, and by the procedure established in article 69.

32.4. General cessation of the members of the Board. Management Commission.

If the resignation, renouncement or cessation of the members of the Board of Directors is produced in a simultaneous and generalised fashion, a Management Commission must be constituted to substitute the Board of Directors.

The cessation will be considered to be of a simultaneous and generalised nature if any of the following situations should arise:

- a) When the vacancies amount to more than 50 per cent of the number of Board members, at the moment of cassation, including the President.
- b) When the vacancies amount to more than 75 per cent of the number of Board members at the time of cessation, even if this has not affected the President.
- c) Whenever the Board is constituted by less than five people.

Concerning the previous regulation, an exception is made in the case of generalised and simultaneous resignation of the Board members when this is done in order to stand for new elections called for the natural end of the term of office, in compliance with the incompatibility regulated by article 38.f). In this case, if the Board still has a minimum of a third of the number of its members at the time of cessation, the Management Commission will not be constituted and the Board, through the remaining members, will maintain its functions for the transitory period of the election process. In the case that a minimum of one third of the members of the Board does not remain, the members that have not resigned, along with the members of the Electoral Board elected for that process, shall constitute a provisional Board for the duration of the voting process.

The Management Commission will be made up of a number of members no lower than 50 per cent of the total members of the Board of Directors at the time of the cessation, with a minimum of seven members.

The natural President of the Management Commission will be that of the Financial Commission, who together with the Members' Trustee, will freely designate the other members from the members of the outgoing Board, the members of the Financial Commission and the Disciplinary Commission. The positions to be occupied by the designated persons will also be named, along with the total number of members, in accordance with the stipulated minimums and maximums. If the Presidency of the Financial Commission is vacant, or that person does not accept his or her nomination, he or she will be substituted by the Vice President of that Commission. In no case can members of the outgoing Board be elected to the Management Commission if they have been the passive subjects of a vote of no confidence.

The Management Commission will exercise the functions of governance, administration and representation as bestowed upon the Board of Directors, but will be limited to necessary and essential actions for the maintenance of the Club's normal activities and the protection of its interests.

The main role of the Management Commission will be to call elections to constitute a new Board of Directors, which it must do within a period of three months of the day its members took office. In that case, the voting may not be performed between 15 and 30 June.

In all of the situations covered by this article, the Members' Trustee will continue to exercise his or her functions.

Article 33.- Functioning system.

33.1. Frequency of meetings.

The Board of Directors will meet as many times as necessary but always at least once a month, with the optional exception of the month of August.

33.2. Calling meetings.

The Board will be called to meetings by the Secretary, at the behest of the President.

Meetings can also be called by a third of the Board members, and in this case, they must be held within the next seven days. If the meeting is not called during this period, it can be directly called by the oldest member of the Board out of those signing the request.

The call for a meeting must include an Agenda, and will be provided at least 36 hours in advance, unless the meeting is urgent in which case the meeting can be called at shorter notice.

33.3. Attendance and necessary quorum.

For the Board to be validly constituted half of its members, at least, must be present.

Board of Directors meetings may be attended, with the right to speak but not to vote, by personnel in Top Management or any other Club employee whose presence is considered necessary to provide information on specific matters.

They can also be attended, with the right to speak but not to vote, by the Presidents of Club's Commissions or Sections that are not members of the Board, when they are invited.

33.4. Previous information.

Before any Board meeting is held, all of the members of the Board of Directors may request any information they feel necessary about any of the items included in the Agenda.

33.5. Chairing of meetings and agreements.

The President, assisted by the Secretary, will chair Board meetings and will oversee the debates and interventions of the members of the Board of Directors.

Agreements will be made by majority vote of the members of the Board of Directors present.

The members of the Board of Directors may request that the Minutes detail the meaning or a brief explanation of their vote.

In the case of a tie, the President will have the casting vote.

33.6. Confidentiality of meetings.

All of the members of the Board of Directors and other persons present are obliged to respect the confidential nature of the Board's deliberations, and are not permitted to disclose them.

33.7. Minutes of meetings.

The Secretary will draft the Minutes of the meetings of the Board of Directors, making a summary of the items dealt with and the interventions, and will detail all agreements.

At each meeting of the Board of Directors, the Minutes of the previous meeting will be presented, and subjected for approval. If there are any amendments or observations, these will be included.

The Secretary must draft the minutes of the meetings of the Board of Directors, which must be subjected to the approval of the same Board, and must archive or transcribe them to the corresponding book, and which should be signed and approved by the President or the member substituting that person.

Article 34.- Delegate Commission.

Within the Board of Directors, a Delegate Commission may be constituted containing a maximum of two thirds of the members of the Board of Directors, which will be made up of members designated by the President and which must necessarily include the President, a Vice President, the Secretary and the Treasurer.

The Delegate Commission will meet at the behest of the President as many times as necessary and will have the following functions:

- a) To study and prepare the items that are to be subjected to the Board of Directors.
- b) To provisionally adopt any decision that is the competence of the Board of Directors, when for reasons of urgency it is not possible to wait until the next meeting to be called, under the obligation that the Board will be informed of this at the immediately following session and its ratification will be obtained.
- c) To make decisions regarding any matters that have been expressly delegated to it by the Board of Directors and to inform about these at the next meeting of the same.

Article 35.- Liability of the members of the Board of Directors.

The members of the Board of Directors are liable for their actions before the General Assembly.

They will also be jointly liable before members for any actions they may have adopted regarding the economic and financial area of the Club that contravene the provisions of this Statute and the regulations of Section 2 of Chapter 3 of the Regulations for the internal operation and systems of Clubs as passed by Decree 145/1991 of June 17, of the Executive Council of the Government of Catalonia, excepting members of the Board of Directors that have voted against the agreement from which that liability arises.

Regarding the joint liability imposed on the Board of Directors by paragraph 4 of the Seventh Additional Disposition of State Law 10/1990, on Sport, concerning negative financial results that could be produced during the term of office, this will be governed by what is stipulated by the aforementioned Law and the dispositions concerning it.

The legal requirement of constituting bank guarantees to respond for the financial liability that could affect the Board of Directors is complemented by those affected in the form and by the conditions that are established from time to time by current legal provisions.

All the members shall be equally liable for the total amount of the bank guarantee that may be required of the Board, unless individual or internal agreements are made between the members of the Board of Directors for a different distribution of liabilities. The agreements made on this matter must be recorded in the Minutes of the Board of Directors, the certification of which must be provided to the custodian institution holding the bank guarantee.

The partial cessation of members of the Board before the end of the term of office will not free them from any liabilities that the Board might have contracted until the moment of cessation, or from any commitments acquired with respect to the bank guarantee that may have arisen, unless the remaining members of the Board of Directors, or those that substitute them, internally agree to substitute the responsibilities of the members that have left and replace them in the bank guarantee. This circumstance will also be noted in the Minutes of the Board, which will be communicated, by certified correspondence, to the custodian institution holding the guarantee.

Article 43.- Electorate and Electoral roll.

43.1. Creation.

The Members' Trustee, along with the human and material resources in his or her office, is the Club body in charge of forming the electoral roll by creating a file of all of the Club members with the right to vote.

The electoral roll is in permanent creation and is updated on a monthly basis by the Members' Trustee by producing a list, which can be controlled and revised, of incoming and outgoing members and other data that is provided by the Club to this body on the same monthly basis.

The electoral roll must list all of the Club members in numerical order and must feature their membership numbers, full name, national ID number or passport number, date of joining the Club and date of birth.

The electoral roll must be made permanently available to the Club members that wish to consult their own personal data at the Members' Trustee's office within this office's regular

working hours and, if relevant, to make appropriate claims, which will be resolved by the same Members' Trustee.

43.2. Display, consultations and claims regarding the Electoral roll during election periods.

For each election, the electoral roll to be used will be that valid on the day that the elections are called, valid being understood to be that at the end of the day that the elections are called.

From the day after the constitution of the Electoral Roll, and for a period of five calendar days, the lists of Club members with the right to vote and that make up the electoral roll will be displayed for viewing by Club members at the office of the Members' Trustee.

Before being shown to the public, the electoral roll must have been presented to the Electoral Board, who will identify it and confirm it by signature. Minutes will be drafted of this act of presentation and confirmation, which will include the number of pages that make up the list and the total number of Club members included in it. The Electoral Board may demand a duplicate of the list of members, which will remain in its custody.

During the period of public display of the electoral roll, any Club member may consult it and demand any relevant clarifications.

Consultations must be made within the normal working hours of the Members' Trustee's office.

During the period that the lists are displayed, Club members may make claims regarding omissions or incorrect inclusions in the roll, or request any rectifications of errors they have observed. All requests or claims must be made in writing to the Electoral Board. The periods for resolution by the Electoral Board and for appeals against it will be those indicated in article 42.

43.3. Passing of the definitive electoral roll.

Once Stage IV of the election process (display of the electoral roll) is over, within the following three calendar days, having dealt with any claims or observations made by the Club members, the Electoral Board will approve the definitive electoral roll of FC Barcelona Club members that will be granted elector status.

Minutes will be drafted of this act of approval, and the Electoral Board will proceed by signing it to authenticate and confirm the definitive list of Club members forming the electorate. The minutes will record the definitive number of pages that make up the roll and the total number of Club members forming the electorate.

This list, which will remain in the custody of the Electoral Board in the Members Trustee's Office will be the definitive electoral roll and may not undergo any amendment for the remainder of the election process.

Article 44.- Candidacies.

44.1. Periods for presentation.

From the days after the definitive approval of the roll by the Electoral Board, and for a period of seven working days, candidacies for the FC Barcelona Board of Directors can

be presented. The time limit for presenting candidacies will be at 21 hours on the seventh working day.

44.2. Nature, form and composition of candidacies and requirements for presentation.

Candidacies will be closed and subject to block voting.

Candidacies must be made up of a number of candidates no lower than fourteen and no higher than twenty-one, headed by a candidate for President.

No candidacy may include any outgoing President that has just completed a second consecutive term of office as established in article 31.2.

Candidacies must be presented to the Electoral Board, in writing and in duplicate form, and must contain the following details:

- Lists of the names and surnames of the candidates and, along with each name, the candidate's signature to accredit their conformity. All of the candidates must satisfy the conditions established in 38.
- Photocopies of both sides of the candidates' membership cards and of their identification documents.
- Photocopy of documentation accrediting the Catalan civil residency status of the candidate for the Presidency.

In the candidacy, no reference or list will be included of the different Board positions, apart from that of President, which will correspond to the candidate at the top of the list. If the members of the candidacy consider it convenient, they can attach a list of the biographical details and merits of the aspiring candidates.

Along with the candidacy, presentation must also be made of the support slips signed by Club members and the testimony of their commitment to provide the guarantee referred to in sections 44.4 and 44.5.

44.3. Support of Club members for candidacies.

To be proclaimed by the Electoral Board, candidacies must have been proposed by a number of Club members no lower than fifty per cent (50%) of the delegates that make up the Assembly.

To accredit this support, each candidacy must, on presenting itself as such, provide the accrediting support slips in accordance with the following regulations:

- a) Club members may only support one single candidacy. All of the slips signed by the same Club member who has supported more than one candidacy will be considered void.
- b) All Club members signing a support slip must be included in the definitive electoral roll approved by the Electoral Board.
- c) The slips must be filled in using the official form that will be published by the Club for each election process and which will contain, at least, the following characteristics:

- It will bear the name and crest of FC Barcelona and a reference to the year in which the elections are held.

- In a clear position and in legible writing, it will feature the name of the Club member proposing the candidacy, along with the declaration of being an adult and not being incapacitated, and having been a member for at least one year at the moment that the elections are called, and not to have their membership suspended.

- Also printed in a clear position on the official slip published by the Club will be the name of the candidate for the Presidency leading the candidacy.

- In a space on the slip will be attached a photographic or photostatic copy of the national identity document or equivalent in the case of foreigners, driving licence or passport of the Club member giving their support.

- Another clear space will display the membership number, the identity document number and, finally, the date on which the proposal is made and a signature.

- In a space on in the top right hand corner of the slip, a space will be left for correlatively numbering the proposals presented by candidacies.

d) From the beginning of stage IV of the election process, aspiring candidates to the Presidency of the Club may request that the Electoral Board present them with official support slips with their name printed on. This application will be made in writing, indicating the number of slips ordered. The Electoral Board will provide the slips ordered within a period of 36 hours, which, up to twice the number required to be proclaimed as a candidate, will be free. Any that are ordered above this limit will be paid for by the applicant.

e) The support slips provided by each candidacy must be numbered and ordered by membership numbers, from lowest to highest.

f) The Electoral Board will acknowledge receipt of the candidacies that have been presented to it within the established period, and will sign a copy of this acknowledgement. The Secretary, under approval by the President, and following the necessary verifications, will provide official accreditation of the number of support slips provided by the candidacy, specifying the day and time when they were presented. A copy of this official accreditation will be provided to the aspiring Presidential candidates.

44.4. Commitment to providing a bank guarantee if so required by the law.

In order to be proclaimed by the Electoral Board, each candidacy must provide a document signed by all of its components in which the same declare their commitment to act as guarantors in the case of being electors, in accordance with the disposition of article 33 of these Statutes and the seventh Additional Disposition of State Law 10/1990 and dispositions that develop it, if jurisdictional regulations demand this requisite.

44.5. Proclamation of the candidacies.

Within the three working days following the end of the period for presenting candidacies, the Electoral Board must ensure that the candidacies presented and the Club members proposing them satisfy the conditions demanded by these Statutes, that they have complied with the procedures and time limits of this stage of the election process,

that the candidacies have received the support of a minimum number of Club members as demanded in section 44.3 of this article, and they have provided the commitment to acting as guarantors referred to in section 44.4 of this article. Especially, the Electoral Board will proceed by verifying the validity of the support slips provided by the candidates, and has the faculty to request the candidates and Club members themselves to provide the necessary details to verify their authenticity.

When a candidacy includes one or more Club members who do not satisfy the conditions for being eligible, the candidacy will remain valid with respect to the other candidates as long as the invalidated person is not the candidate for the Presidency and the total number of remaining candidates is the same or more than the minimum requirement of fourteen. If the aspiring President is declared invalidated, or the number of candidates is lower than fourteen, the entire candidacy will be declared invalidated.

Once this verification process is complete, the Electoral Board will proceed by proclaiming the candidates that have the right to participate in the elections through having satisfied all of the requirements demanded by the Statutes, and will reject those candidacies that have failed to satisfy said requirements.

The proclamation or rejection of candidates, or individual members of the same, as well as the number of valid support slips collected from members will be reflected in the Minutes that will be drafted by the Electoral Board. Reasons for refusing candidates will be offered. Each Presidential candidate will be notified of the certification of the Minutes.

The claims and appeals detailed in article 42 may be lodged against the resolution by the Electoral Board to refuse the proclamation of a candidacy or any of the members of a candidacy.

Within two working days of the proclamation of the candidacies, the Electoral Board will provide a certification of the Minutes of the proclamation to the President of the Catalan Football Federation and the Club's Board of Directors or the Management Commission.

Article 45.- Proclamation of a single candidacy.

If there is only one candidacy, or only one candidacy remains valid, the Electoral Board will proceed to directly declare that candidacy the winner, thus concluding the election process, the members will be proclaimed elected.

Article 46.- Inexistence of candidacies or invalidity of all those presented.

If there is no candidacy or none of those presented are valid, the Electoral Board will communicate this to the Club's Board of Directors or Management Commission, who must call new elections within a maximum period of three months.

Article 47.- Election campaign.

From the day after the candidacies are proclaimed, and for seven working days, the candidates may host informative, promotional or propaganda events.

The Electoral Board has the competence to resolve all applications or claims made by the candidates in relation to the election campaign and will ensure that, in their manifestations and actions, all of the candidates demonstrate the respect that their opponents deserve.

The Club's Board of Directors will facilitate the candidates' undertaking of their election campaigns and put the Club's facilities at their disposal, as long as this is compatible with its sporting activities and acquired commitments.

The Members' Trustee will process all of the information and publicity that the candidates wish to address to the Club members, via the services of the Members' Trustee's Office. Requests for such procedures will be made in writing to the Office, which will inform the candidates of the cost of the service and the possibility of facilitating it. Any expenses generated by these services will be charged to the candidates requesting them.

The Electoral Board will fairly resolve any conflicts that could arise when the candidates coincide in requesting the same Club services or facilities on incompatible dates, and will ensure that the principles of equal opportunities are maintained with respect to Club services or facilities.

Article 48.- Day of reflection.

The calendar day remaining between stage VIII (end of the election campaign) and stage X (holding the vote) will be reserved for reflection and evaluation of the proposals that have been made by the different candidacies.

From zero hours of that day, the candidacies are forbidden from partaking in all public activities and may not, either directly or indirectly, perform acts considered part of the election campaign, such as placing posters, publishing or emitting propaganda via the media, making declarations or giving interviews.

Article 49.- Votes. Count. Proclamation of winning candidacy. Notification and publication of the electoral documentation.

49.1. Votes.

Votes will be issued on the day and at the time and place established in the call for elections.

The voting slips will be printed by the Club using the same format, paper and colour for all of the candidacies.

Voting slips, other than the option of including the club crest and a reference to the specific election process, may only feature the name of the Presidential candidate of each candidacy.

The voting slip will be placed by each elector in an envelope printed by the Club and which will bear a reference to that specific election process.

The electors must accredit themselves by presenting their national identity document or equivalent in the case of foreigners, passport or driving licence.

The electors will hand those people running the election tables, which will be arranged in the alphabetical order of the names of the Club members, with the envelope containing the voting slip and the latter will place it in the ballot-box.

Only Club members whose names are recorded in the definitive electoral roll approved by the Electoral Board may exercise the right to vote.

The Electoral Table will preside over and control the voting day, and will resolve all incidents or claims that might arise, in accordance with what is stipulated by article 41.

The Members' Trustee, on election day, will assist the Electoral Table in exercising its duties in accordance with what is stipulated by article 41.5 and will, especially, helped by personnel from his or her Office, assist the different tables with all matters relating to the electoral roll.

49.2. Count.

Once the voting period has ended, the Electoral Table will arrange the start of the count of each ballot-box and the overall total for all the ballot-boxes, which should reflect the following data:

- Total Club members with the right to vote.
- Total Club members that have voted.
- Total valid votes obtained by each candidacy.
- Total blank votes.
- Total spoiled votes.

All voting slips not printed by the Club or that contain additions or comments will be considered spoiled. Also, all voting slips not presented inside envelopes printed by the Club will be considered spoiled.

If an envelope contains more than one voting slip voting for the same candidacy, this will only count as one vote. If an envelope contains more than one voting slip voting for different candidacies or that are blank votes, these will all be considered spoiled.

A blank vote is considered to be either an envelope containing no voting slip or one or more voting slips voting for no candidate.

This data, and that mentioned in article 41.4.h), will be reflected in the Minutes that will be drafted by the Electoral Table concerning the voting day, and which will be signed by all of its members.

49.3. Proclamation of the winning candidacy.

Once the voting has concluded and the Minutes have been drafted and signed by the Electoral Table, the proclamation of the winning candidacy will commence.

The winner will be the candidacy that has obtained the most valid votes.

If there is a tie between two or more candidacies that have obtained the most votes, no candidacy will be proclaimed the winner and a new round of voting must be held involving the tied candidacies, on a new date to be set by the Club's Board of Directors or the Management Commission, within the following seven calendar days. The date of the new vote will be announced in the form determined by article 39.2.

Until the new vote is held, the Electoral Board and Electoral Table will maintain their

duties and stage VIII (Election Campaign) will not be restarted. If there should once again be a tie after the second vote, a third vote will be called, and as many successive polls as are necessary until one candidacy obtains a majority.

The proclamation will be made jointly by the Electoral Board and the Electoral Table at the end of the voting day by publicly reading the Minutes of the count and officially declaring the elections closed.

49.4. Notification of the results and provision of the electoral documentation.

Within three days after the end of the elections, the Electoral Table will provide the Club's Board of Directors or Management Commission and the registers referred to in article 8, with certification of the Minutes of the vote count and the proclamation of the winners.

The Electoral Board and the Electoral Table will be the depositaries, at the Club head offices, of the minutes and documents relating to the election process, as long as any claims or appeals persist in relation to the election that have yet to be resolved by federations or administrations. If there are no such circumstances or from the moment that the appeals have been resolved administratively, they will have thirty days to provide the Board of Directors with an ordered dossier of all of the minutes and documents relating to the election process, accompanied by a list of the documents contained within. Minutes will be drafted of the presentation of these documents and signed by the Electoral Board, the Electoral Table and the Board of Directors. This act will officially conclude the duties of the Electoral Board and Electoral Table, which will henceforth be dissolved.

Article 50.- Taking office and communications.

If the election process has been the consequence of the natural termination of the term in office of the previous Board of Directors, the newly elected Board must take office on the date of July 1 after the elections and the members remaining from the previous Board will immediately vacate their positions.

If the electoral process was initiated by the Management Committee because of early termination of the mandate of the previous Board, in accordance with the terms of article 32.4, the new Board elected shall take possession within ten calendar days following the date of the election.

In both circumstances, for computation of the duration of the mandate article 31 will apply.

If the law requires a bank guarantee to be provided, prior to taking office, the newly elected Board must have formalised the bank guarantee in the manner required by current regulations. If this is not the case, the Board will not take office and this governing body will be considered vacant, and a Management Commission will automatically be constituted to call a new election process.

The new Board will take office at an extraordinary session of the Board of Directors, which will be attended by the outgoing Board or Management Commission and the newly elected Board, and which may also be attended in the capacity of witnesses, by representatives of Governments, Administrations, Federations or Associations.

Once constituted, the new Board will notify its composition to the registers referred to in article 8. The President of the outgoing Board of Directors or Management Commission, or any member of the same delegated by him or her, may intervene at the first ordinary General Assembly that is held to explain the liquidation of the previous financial year and propose it for approval.

SECTION 5.- VOTE OF NO CONFIDENCE.

Article 51.- Vote of no confidence.

51.1. Subjects of a vote of no confidence.

All of the members of the Board of Directors are passive subjects of a vote of no confidence. A vote of no confidence may be requested against all of the Board or some of its members.

The Club members that satisfy the conditions to be an elector under terms of article 37 are the active members of a vote of no confidence.

51.2. Petitioners of a vote of no confidence.

The calling of a vote of no confidence can be requested by: the majority of the members of the actual Board, 5 per cent of the Club members that satisfy the conditions to be an elector as established by article 37, or 50 per cent of the delegates currently in office. To calculate 5% of the Club membership, the total number of Club members will be considered to be that existing on the day that the vote of no confidence is announced under the terms established in article 51.3.a).

51.3. Form and procedure for requesting of vote of no confidence.

a) Before formally presenting the request for a vote of no confidence, those leading the motion must write to the Board announcing their proposal, with a list of the members of the Board that they wish to subject to the vote of no confidence. The same written notice will request the Board to provide the official form for slips justifying the necessary support of Club members or delegates.

b) The Board of Directors, within a period of no more than 5 working days, will supply the petitioners with the support slips, which will be of the following characteristics:

- They will bear the name and crest of FC Barcelona and the following title: "Support slip to request the calling of a vote of no confidence against...", and will describe the names of the members of the Board of Directors affected, or in such a case, the totality of the Board.
- In a space, and in legible lettering, will appear the name of the Club member supporting the request, with a declaration that he or she is adult, not incapacitated, has been a Club member for a minimum of one year and does not have a suspended membership.
- In another space on the slip will appear that person's membership number and identity document number, his or her full signature and the date.

- In another space will be attached a photographic or photostatic copy of both sides of the Club member's identity document.

The number of slips provided by the Club will be double that required to support the vote. If this limit is surpassed, the promoters of the vote of no confidence may order more slips, and they will be supplied, but at the promoters' own cost.

c) The promoters of the vote of no confidence will have a limit of 14 days, counted from the day after the one on which the slips were received, to present their formal request to the Board of Directors, which will declare the motive, the members of the Board that are to be subjected to the vote of no confidence and whether this is being demanded by a percentage of Club members or of delegates, attaching the support slips to this.

51.4. Constitution of the Table for the Vote of No Confidence.

Within ten working days of the formal presentation of the request, the Table of the Vote of No Confidence will be constituted, which will be the body in charge of promoting and controlling the full process and which will be made up of the following people:

- The first two Club members or delegates to have signed the petition.
- Two members of the Board of Directors, designated by the Board itself.
- A delegate from the Catalan Football Federation, designated by the Federation itself, who will act as President.

For the functions and duties of this Table, the regulations included in these Statutes for the Electoral Table and Electoral Board will be analogically applied, including the references therein to resources or appeals against its decisions.

Once the Table of the Vote of No Confidence has been constituted, it shall proceed, within a maximum of 10 working days, by verifying that the request complies with the requisites to which it is subjected and, especially, that there is adequate motive and sufficient support among the membership or delegates. The Table may invalidate support that is insufficiently accredited and may make any necessary investigations to ascertain authenticity.

Once the verification is over, the Table must make a statement regarding the admissibility of the vote of no confidence. In no case will the procedure for a vote of no confidence be admitted if motivated by events prior to the election of the censured member or members of the Board of Directors or for causes unrelated to the management of the Club.

If all of the requisites are complied with, the request will be declared admitted and Club's Board of Directors will be ordered to call a vote, which must be held within a period of no less than 10 working days or no more than 20, counted from that on which the Table provided notice of the requirement.

If the requisites have not all been complied with, the request will be rejected, on well-motivated grounds, and the two first signatories will be informed of this.

51.5. The voting procedure.

The call for voting will be publicly announced by the Board of Directors by means of the method indicated in article 39.2 of these Statutes at a minimum notice of 5 working days.

The voting procedure, count and publication of the results will be regulated, analogically, by the regulations indicated in article 49, and the duties bestowed upon the Electoral Board and Electoral Table will be assumed by the Table of the Vote of No Confidence.

The only Club members who enjoy the condition of being an elector in the process of a vote of no confidence are those that satisfy the conditions given in article 37.

Once the voting has concluded, the table will count the votes in accordance with what is stipulated by article 49.2, and will announce the result.

The vote of no confidence will only be accepted if two thirds or more of the votes are in its favour, as long as the number of these is a minimum of 10 per cent of the members of the Club.

The members of the Board of Directors that lose a vote of no confidence will automatically be removed from their positions, with the stipulations of articles 32.1 or 32.4 being applicable.

If the vote of no confidence does not obtain that majority, it cannot be called again for the same motives until one year has passed counted from the date on which the vote was held.

CHAPTER 7

DISCIPLINARY AND JURISDICTIONAL SYSTEM

Article 63.- Disciplinary system.

The Club has the authority to correct infringements of sporting or associative discipline that are produced on occasion of or as a consequence of the undertaking of its activities. The exercising of this authority, the disciplinary procedure, the classification and characterisation of the infringements, and the applicable sanctions, are the object of this Chapter.

Article 64.- Scope of sanctionable infringements.

The disciplinary infringements subjected to the Club's disciplinary authority are classified into three areas:

64.1. Infringements related to the rules of play.

These are actions or omissions contravening the rules of play made by players, coaching staff or sportspeople that participate in sports competitions, games or events organised internally or socially by the Club.

Expressly excluded from this group and the sanctioning authority of the Club are infringements of the rules of play made by players, coaching staff or sportspeople that participate in sports competitions, games or events organised by Federations, Associations of Clubs or other local, regional, state or international Bodies, in the regulations of which provisions are already made for regulations and disciplinary authority concerning infringements of the rules of play. In these cases, the disciplinary authority will be that of the Organising Body, in accordance with the rules regulating it, without affecting the condition that, should the infringement be one of sporting conduct, the infringement may also be subjected to the sanctioning authority of the Club.

64.2. Infringements related to sporting conduct.

These are actions or omissions that contravene the general regulations for sporting discipline and coexistence involving Club members, players, members of coaching staff and sportspeople.

64.3. Infringements related to membership conduct.

These are the actions or omissions made by Club members that contravene legal associative regime, the Statutes and agreements of the General Assembly or the Board of Directors. For these purposes, it will be understood that the members of the organ of government of a Fans' Club will be responsible to the Club for the actions and omissions taking place in

its headquarters, independently of the results of application of the Fans' Clubs Regulation.

In the circumstance of assignment of the season ticket allotted as authorised under this Constitution, it will be understood that the assigning member will be responsible for possible infringements committed by the assignee. This provision will be excluded in the event that the assignment is made in favour of or through the Club

Article 65.- Disciplinary authority.

In the three areas to which the Club's disciplinary correction is subjected, the exercising of disciplinary authority corresponds to the following people and bodies:

a) Infringements related to the rules of play:

To the umpires and referees during sporting events or competitions of an internal membership nature, subject to the rules established by the governing bodies of each sporting discipline or those specifically passed for the competition in question.

b) Infringements related to sporting conduct:

To the Disciplinary Commission.

c) Infringements related to membership conduct:

To the Disciplinary Commission.

To the Disciplinary Committee, except in the case that the presumed infringer is a member of that Committee, in which case the exercise of the disciplinary power will correspond to the Governing Board.

Article 66.- Classification and characterisation of infringements.

66.1. Infringements related to the rules of play.

To be applied will be, as a reference, the classification and list of different infringements of the rules of plays detailed in the Statutes or Rules of the Federations governing the sports modalities corresponding to the games or competitions organised internally by the Club, and these will be qualified as minor, serious or very serious.

66.2. Infringements related to sporting conduct.

To be applied will be, as a reference, the classification and list of different minor, serious or very serious infringements described by article 96 of Legislative Decree 1/2000, of July 31, which approves the general sports regulations.

66.3. Infringements related to membership conduct.

Infringements of associative conduct by actions or omissions related with the activities of the Club are classified as minor, serious or very serious.

- the incorrect use of the financial or material resources of the Club, when not classified as a very serious infringement.

Serious infringements are:

- actions or omissions of members against the law, the Statutes, the resolutions of the General Assembly or Governing Board, which are of public importance or cause material damage to the image of the Club, the other members, the members of the Governing Board, the players, technicians or employees.

- the isolated assignment for value of the ticket allowing access to a sports event organised by the Club, or in which the Club participates, except when the assignment is made through or in favour of the Club itself.

- a negligent attitude to compliance with the obligations of preventing violence during a match, event or competition, and lack of collaboration in the investigation and discovery of the identity of those responsible for violent acts.

- failure in compliance with the rules governing the holding of sports events, thus impeding their normal development or causing loss or prejudice to the participants or the public attending, when not constituting a very serious infringement.

Very serious infringements are:

- failure in compliance with the obligation to pay, reimburse or compensate the Club for any financial item owed by the member, with the exception of those corresponding to the membership quota or the price of the season ticket.

- the repeated selling on of the ticket giving access to sports events organised by the Club, or in which the Club takes part, and the isolated selling on of the ticket giving access to more than one sports event organised by the Club, or in which the Club takes part, with the exception in both cases that the assignment is made through or in favour of the Club itself.

- conduct which leads to the imposition on the Club of an enforced sanction, whether financial or of any other type.

- any action or omission of the member against the law, the Statutes, the resolutions of the General Assembly or Governing Board when there is fraud or bad faith.

- any action or omission of the member against the law, the Statutes, the resolutions of the General Assembly or Governing Board, which is of great public importance.

- insults or offensive behaviour to other members, or to the public attending a sports event.
- conduct which seriously affects the normal progress of a match, event or competition, or which obliges its temporary or definitive suspension.
- acts, demonstrations or behaviour which, directly or indirectly, induces or incites to violence, or to the infringement of legal rules or regulations preventing violence in sport.
- the infringement, in the Club's premises or precincts, or in those precincts where a Club team is playing in a match, event or competition, of the legal, regulation and statutory rules established with regard to the system for ticket sales, the separation of rival fans in different parts of the precinct, and the control of access for compliance with the existing prohibitions.
- the introduction or exhibition, in the Club's premises or precincts, or those precincts where a Club team is playing a match, event or competition, of posters, symbols or emblems when, for their content or the circumstances in which they are exhibited or used, this could be considered as an act which incites, promotes or aids violent xenophobic or racist behaviour, or the manifest disparagement of any person.
- the introduction or possession, activation or launch, in the Club's premises or precincts, or in those where a Club team is playing a match, event or competition, of any type of weapons or objects which could produce the same effects, as well as flares, fire crackers, explosives or, in general, inflammable, smoke producing or corrosive products.

Article 67.-Sanctions.

The sanctions which may be imposed for minor, serious or very serious infringements related with the rules of the game or sports conduct will be those provided in the general sports regulations

The sanctions that can be imposed for minor, serious or very serious infringements related to membership conduct will be:

For minor infringements:

- Private warning.

For serious infringements:

- Public warning.
- Prohibition from entering the Camp Nou or other Club facilities for a maximum period of one year.
- Suspension of membership for from 1 to 4 months

For very serious infringements:

- Prohibition from entering the Camp Nou or other Club facilities for a maximum period of one year and one day to two years.
- Suspension of membership for from 4 months and a day to 2 years.
- Loss of membership.

All the sanctions which involve the suspension or loss of membership can carry, as an accessory sanction, a prohibition on accessing Camp Nou or other Club premises.

The Disciplinary Commission, when evaluating the infringement and the sanction to be applied, will consider the concurrence of circumstances that exempt, extenuate and aggravate responsibility in analogical fashion to the Penal Code, as well as the nature of the events, the personality of the person responsible and the consequences of the infringement.

The imposition of any disciplinary sanction will not exempt the infringer from the obligation of repaying or compensating the Club for any damages he or she has caused.

Article 68.- Statute of limitations for infringements and sanctions.

The limit for filing a case for infringements and sanctions related to the rules of play and sporting conduct, as well as their calculation and interruption, will be governed by the general sports laws.

The limit for filing cases related to infringements and sanctions related to membership conduct will be governed by the following regulations:

- a) The period for minor infringements expires after one month, for serious infringements one year and very serious infringements three years.

b) The limit for sanctions will expire after one month, one year or three years depending on whether the infringements are minor, serious or very serious respectively.

c) The period for the expiry of infringements will be counted from the day that the infringement is committed. The period will be interrupted by any action by the body with disciplinary authority, of which the interested party is informed, aimed at instigating the corresponding disciplinary procedure.

d) The period for the expiry of sanctions will be counted from the day on which the resolution to impose the sanction is declared correctly notified to the infringing subject. The period will be interrupted by any action aimed at executing the sanction of which the sanctioned party is made aware.

Article 69.- Disciplinary procedure.

The imposition of sanctions for the cause of infringements related to the rules of play or sporting conduct will be in accordance with the procedures and regulations stipulated by the general sports laws.

The imposition of sanctions for the cause of infringements related to membership conduct will be made after the assessment of disciplinary proceedings under the following regulations:

a) The Disciplinary Commission, as soon as it is made aware of an infringement, will agree to open disciplinary proceedings, and from among its members will nominate an investigating officer. This resolution will irrefutably be notified to the member concerned.

The Disciplinary Commission, before agreeing to open disciplinary proceedings, has the power to obtain whatever preliminary information it feels necessary.

b) Once the proceedings have been opened, the investigating officer will be supplied with details of all of the legal actions and evidence that he or she feels necessary, such as the party concerned's statement, witnesses' statements, the provision of documents and any enquiries.

c) Once this period has expired, the investigating officer for the proceedings will present a report-proposal to the Disciplinary Commission, which decides whether to dismiss the case and end the proceedings, or to press charges against the party concerned. The decision will be accepted by simple majority, and will be irrefutably notified in writing to the party concerned.

d) The charge sheet will include a list of the infringements attributed to the member, who will have a period of no less than five calendar days to present a defence in writing and to propose forms of making enquiries that are considered relevant to that defence. This document will be supplied to the investigating officer of the proceedings.

e) Once the period for presenting the defence has expired and, if necessary, any of the proposed enquiries have been made, the Commission will declare its verdict after a maximum period of 20 working days.

f) The Disciplinary Commission's verdict may acquit the party charged, thus dismissing the case and considering the proceedings closed, or may condemn the party, thereby determining the sanction to be imposed.

In both cases, the resolution will be made on fair grounds, will be irrefutably notified

to the party concerned, who will be informed of the procedure for appeal, if any, and the maximum period for lodging it.

g) At the beginning of proceedings, or at any moment during the procedure, and if the circumstances make such a measure advisable, the Disciplinary Commission may agree, for reasons of caution, to withdrawal of the member's or season ticket holder's card, or a cautionary prohibition on access to Camp Nou or other Club premises.

h) When justified by identity or analogy of the facts the proceedings concern, or should several proceedings be brought against the same member, a joint hearing of the various disciplinary proceedings may be resolved.

i) There may be no more than three months between the agreement to open proceedings and the notification to the interested party of the Disciplinary Commission's verdict as referred to in section f). If this period, which cannot be extended five months, should expire, the case and proceedings will be considered dismissed.

j) The Members' Trustee may appear at any moment during the disciplinary proceedings in defence of the member concerned. In such a case, he or she will also partake in the legal actions, as an interested party, and he or she will be supplied with any agreement or procedure, either from before or after his or her appearance.

For all purposes of the disciplinary procedure, the valid address of the member will be understood to be that shown in the Register of Members of FC Barcelona.

Article 70.- Appeals against sanctions.

a) Appeals may not be lodged against the sanctions agreed by the judges or referees related to the rules of play, of social or internal games or competitions organised by the Club.

b) Against disciplinary agreements made by the Disciplinary Commission in relation to infringements related to sporting conduct, an appeal can be lodged within a maximum period of ten working days of the notification of the official announcement of the verdict to the Federation Appeals Committee.

c) Against disciplinary agreements made by the Disciplinary Commission in relation to infringements related to membership conduct, and also against any other Club related decision passed by the Board of Directors, an appeal can be lodged to the judicial authorities within a period of forty days following notification of the official announcement of the verdict.

The lodging of appeals indicated in this article will not suspend the applicability of the agreements that are the object of the appeal, unless they involve circumstances that recommend this to be done, at the judgment of the federative or judicial body revising the case, following prior and reasonable request made by the party concerned

Article 71.- Records of sanctions.

All of the sanctions imposed will be reflected in the Club books established by articles 57.1 and 57.4 of the Statutes.

The corresponding records of sanctions imposed on Club members will be cancelled one year, two years and five years after having been served, depending on whether they were imposed as a result of minor, serious or very serious infringements.

Article 76.- Liquidation of the Club and its capital resources.

Should the Club be dissolved, the Board of Directors or, if relevant, the Management Commission, will proceed to liquidate the Club's capital resources and assets, in accordance with the following criteria:

- a) The necessary and essential assets will be sold to pay off the Club's debts, with preference given to moveable or perishable assets, over fixed assets.
- b) The remaining sports facilities will be donated to the Local Councils in which they are located, on condition that they are used for the development of sports, and in specific reference to the Camp Nou, on condition that the Club Museum stays open to the public.
- c) The remaining fixed assets that are not sports facilities will be donated to the Government of Catalonia so that they can be used for the development of sport.

Once the liquidation is complete a final General Assembly will be called to verify that the liquidation has been undertaken.

The Club Books and documents will be handed over to the custody of the Barcelona Municipal Archive.
